Executive Leadership Experience

Head of Data and Analytics

2024 – PRESENT

Creditspring · London

Executive leadership driving fintech data transformation and advanced AI innovation.

- Architect and execute the enterprise-wide data strategy and AI governance framework
- Lead development and implementation of company-wide AI policies and ethical guidelines
- Built comprehensive AI pipeline infrastructure in production, including RAG systems and Analyst Agents
- Developed intelligent agentic AI solutions for automated database querying and insights
- Implemented end-to-end ML pipelines with advanced vector search capabilities
- Created knowledge management systems leveraging large language models
- Extended the team to 25+ across data science, engineering and analytics functions
- Established a data mesh architecture, improving cross-functional data accessibility

Head of Data Solutions

2024

Maximus UK · London

Strategic advisor for government services data transformation.

- Guided AI roadmap implementation with a focus on production-ready LLM models
- Advised on £1M+ Data & Analytics budget allocation
- Architected the Central Data Layer platform unifying reporting and data science
- Designed cutting-edge AI solutions for government service bids

Director, Analytics Data Preparation

2021 – 2023

AstraZeneca · Cambridge

Senior advisor for R&D Data Office innovation.

- Guided scaling of the analytics team from 1 to 11 FTEs
- Achieved 95% pipeline impact across 55+ projects
- Developed the Synthetic Clinical Data (F.A.I.R.) strategy, delivering £2M+ cost avoidance
- Led Data Strategy for the Medical Affairs Oncology Business Unit

Head of Data Science

2020

Creditspring · London

Foundational role establishing data science capabilities and ML infrastructure.

- Built the data science function from the ground up, scaling team and capabilities
- Achieved 60% improvement in credit risk assessment through advanced ML models
- Created an automated underwriting system processing 100K+ applications monthly
- Developed core machine learning infrastructure and model deployment pipelines
- Established data governance frameworks and analytical best practices
- Led cross-functional initiatives integrating data science with business operations

Strategic Initiatives Across Organisations

- Pioneered ethical AI frameworks ensuring responsible innovation across sectors
- Established cross-industry data mesh architectures improving data accessibility
- Led parallel digital transformation initiatives resulting in 70%+ process automation
- Developed scalable AI governance models adaptable to different regulatory environments

Previous Leadership Experience 2006 – 2020

Data Science and Visualisation Manager
Lloyds Banking Group · London

- Led Risk Innovation division, improving GINI scores by 30%
- Managed £1M+ project portfolio delivering fraud detection solutions

European Director of Analytics
Aegate · London

- Directed analytics strategy across European markets
- Implemented ML solutions for pharmacy segmentation

Senior Statistical Analyst
The Stars Group · London

- Led development of predictive analytics platforms
- Delivered ML solutions for customer segmentation

Data Innovation Manager
Cegedim (IQVIA) · Lisbon

- Managed international team delivering pharmaceutical research
- Pioneered methodologies improving efficiency by 40%

Executive Competencies

Enterprise AI Strategy & Governance | Multi-sector Digital Transformation | Data Architecture & Infrastructure | Cross-organisational Leadership | Risk Management & Compliance | Team Building & Talent Development | Budget & Resource Optimisation | Change Management at Scale

Technical Leadership

AI / ML Platforms — TensorFlow, PyTorch, Scikit-learn, LLMs, Neural Networks, RAG Systems, Agentic AI
Vector Databases — Pinecone, Weaviate, ChromaDB, FAISS, Vector Search Optimisation
Cloud Architecture — Azure (ADF / Fabric), AWS, Databricks, PySpark
Data Infrastructure — Snowflake, Redshift, Delta Lake, Data Mesh / Lakehouse
Languages & Tools — Python, R, SQL, Power BI, Qlik, Superset, Dremio
MLOps & DevOps — Docker, Kubernetes, CI/CD, Model Monitoring

Education

MSc in Health Management · 2008
INDEG / ISCTE Business School
Thesis: Advanced Analytics in Healthcare Efficiency

Licentiate Degree in Economics · 2005
ISCTE Business School

Board & Advisory

CEO / CTO / COO
Data Value Innovation Company (Stealth)

Cubs Leader
The Scouts Association

> *"Visionary leader focused on driving innovation across multiple sectors while ensuring sustainable growth. Champion of ethical AI practices and data-driven culture — leading complex transformations across different organisational contexts while maintaining strategic alignment and operational excellence."*
